As the third academic year ends soon, Hamuteru and the rest have reached a point where they have to choose a research laboratory for their placement.
WHERE ARE YOU GOING?
SOMEWHERE RELAXING
I HAVE TO CHECK OUT THE EACH LAB'S AREA OF RESEARCH BEFORE I DECIDE
AS LONG AS THOSE THINGS ARE NOT THERE ANYWHERE IS FINE!
Those things refer to rodents
HOW ABOUT HAMUTERU?
I MIGHT REMAIN AT THE HOSPITAL
CHIH

YOU'RE FOLLOWING PROF URUSHIHARA?
That's right
Staying at the hospital means that
SFXs Hmph
ME TOO!
I DON'T LIKE IT THERE-- YOU'LL BE ASKED TO DO MANY UNREASONABLE THINGS AND IT MIGHT BE VERY TOUGH.
ME TOO!
PROF ALSO HAS AN ECCENTRIC PERSONALITY
?
Prof, thank you!
This is thanks to Prof Urushihara's character.
Everyone stays away from the hospital because of these issues, so Hamuberu has no competition

Most students have no clear idea what lab they want to go to and what research they want to do

I've decided to go to the Parasitology lab to research parasites which cause malaria

Exception →

YOUR PROBLEM IS MORE SERIOUS THAN MINE WHICH LAB DOESN'T HAVE RODENTS?

I'M SEARCHING!

SINCE I'VE DECIDED TO BE A VET, I THINK IT'S BETTER IF I GO SOMEWHERE WHERE I CAN HAVE HANDS-ON EXPERIENCE TREATING ANIMALS!

YOU'RE REALLY PICKING THE HOSPITAL? IT'LL DEFINITELY BE TOUGH!

After graduation there would be those who do not end up as clinical vets. A majority of them end up working at pharmaceutical companies, or in the civil sector.

I heard that the Professor of YY lab often takes his students out for a drink!

WAH

These indecisive students often change their minds based on inaccurate information.

SIGH

It turned out to be a rumor!

The pathology lab seems to be a popular choice this year.

In the end, they choose on the basis of popularity level of each lab.

That particular year's survey was not conclusive.

FIRST ROUND SURVEY OF STUDENTS SELECTIONS
HOSPITAL
INTERNAL MEDICINE
Nishino Nikaidou
Nakayama
.....
FIRST ROUND SURVEY OF STUDENTS SELECTIONS
Wah, what should we do? The quota is exhausted
I HAVE CONCLUDED THAT THE HOSPITAL IS THE SAFEST PLACE
Your decision is really pessimistic!
THE TWO GENTLEMEN OVER THERE! PLEASE HOLD ON FOR A MOMENT!
WHEN I THINK ABOUT IT, I WILL JUST HAVE TO BEAR WITH THE PATIENTS WHO COME IN
For instance, Golden Hamsters
YOU'RE ALSO COMING OVER TO THE HOSPITAL?
WHY DO YOU ACT THIS WAY? TO THINK THAT I USUALLY PLAY WITH CHOBI-
Hishinuma, it's embarrassing to force people to come
Eh? Do you play with me?
We have already surprised to the newspapers
I don't want it!
There's also a blanket. Or would you prefer a thermo flask?
DO YOU WANT TO SIGN A CONTRACT WITH THE LAB OF PUBLIC HEALTH? THERE'S A COMPLIMENTARY GIFT!

Choosing a research lab placement is an important decision for a veterinary student,
but each research lab cares more about its own future.
The people at the research lab are keen on accepting new students capable of tackling challenges at work.
WHAT? ONLY TWO LABS SELECTED US?
IT'S ALREADY GOOD. EVERY LAB GETS ABOUT TWO TO THREE STUDENTS ON AVERAGE.
BUT THE STUDENTS CAN STILL REVIEW THEIR SELECTIONS IN ANOTHER TWO OR THREE ROUNDS, RIGHT?
THERE WILL BE FEWER STUDENTS THEN.
LET'S RUN SOME PROMOTIONS!
DO YOU WANT TO THROW IN A SKIING TRIP??
IT'S EITHER SKIING OR THE HOT SPRINGS IN WINTER. IT'S TOO ORDINARY! I WANT IT TO BE LIKE LAST YEAR'S!
LIKE LAST YEAR?

HEY, I HEARD THAT
THE HOSPITAL HAS A "TRIP TO PARADISE ISLAND"!
WHERE'S THAT?
THAT'S RIGHT! THE TRENDIEST SPOT NOW IS AFRICA!
Probably somewhere in the Indian Ocean? Near the islands of Seychelles?
Won't it be great but it's the islands of Seychelles?
Where is the African island?
The location is an island in Africa, where it's summer all year round
and abundant sunlight!
sandy white
azure sky,
The blue sea,

If you help Prof Urushihara collect specimens on this island, you'll get free meals and lodging for a week.

WOWWOWWOWWOWWOWWOW

Which implies, you just pay for transport.

In the midst of the cold winter, the students are greatly tempted by this tropical holiday.

Pathology Research L

PROF, A NUMBER OF THEM WENT OVER TO THE HOSPITAL'S SIDE

DON'T GET ANXIOUS! IT'LL BE FINE

SIX NAMES IT HAS EXHAUSTED THE QUOTA.

GIYAL

IT'LL BE A FIGHT NOW

SECOND

TAL Nishine Nikaido
Nakagawa Ishig

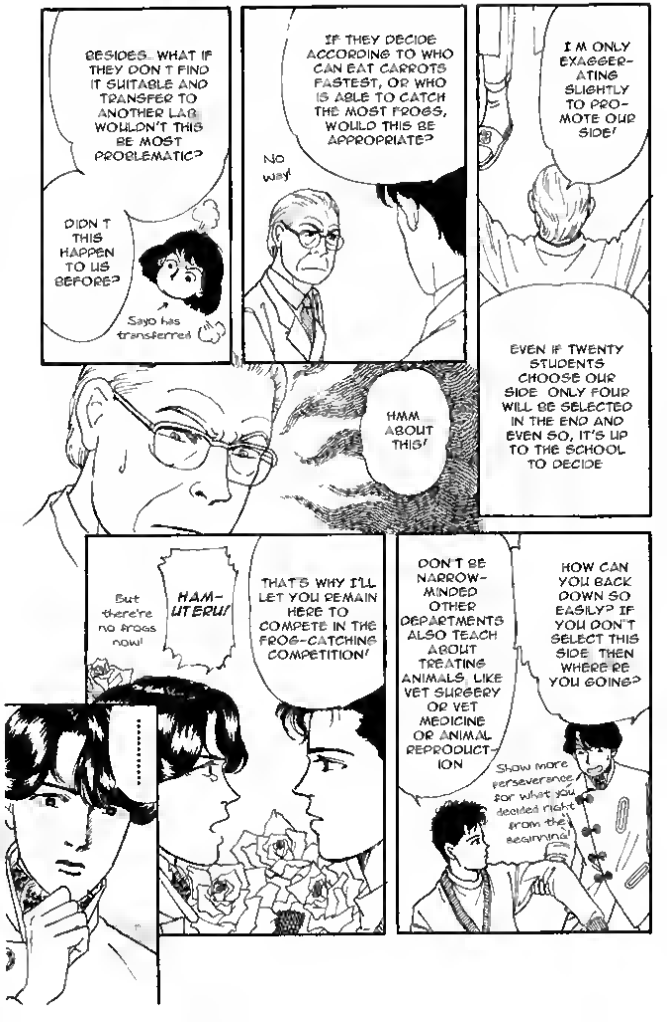
NAL
CINE

SOMETHING HAPPENED ON 5TH JANUARY?
Let's go home quick!
DON'T TELL ANYONE ABOUT WHAT HAPPENED ON 5TH JANUARY!
But those who came on the 5th should already know?
WELL...
I REMEMBER NOW, I THINK THERE WAS AN EMERGENCY AUTOPSY THAT NEEDED TO BE DONE THAT DAY.
HISHINUMA WHAT'S SO SPECIAL ABOUT JANUARY 5TH?
CHOBI COME HERE! COME HERE!
Wants to play with Chobi
Hugs tightly
YOUR FUR FEELS SO SOFT.
THAT'S THE DAY WHEN EVERYONE FIRST MEETS EACH OTHER IN THE LAB AFTER THE NEW YEAR VACATION
WHAT HAPPENED ON THAT DAY?
Right!

HOLD ON FOR A MOMENT!
WE NEED TO PERFORM AN AUTOPSY ON A HORSE
However, an unexpected emergency occurred on that day
RRRR
Let's end the party and go back now!
Autopsy → dissecting dead animals to investigate and determine the cause of death.
The pathology students do not dislike doing autopsies
Please continue to guide me this year too!
5TH JANUARY
.....
PERFORMING AN AUTOPSY ON THE FIRST DAY THAT'S TOO FAR-FETCHED
HMM? WHAT DID YOU JUST SAY?
That's right! If you choose the pathology lab, once a carcass is delivered here, you have to put aside other matters, regardless of whether it's a date, a gathering with friends, or even your part-time job
NIKAIDOU DON'T LEAK THAT OUT...

AH, THE NUMBER OF APPLICANTS FOR THE HOSPITAL HAS INCREASED HUGELY
Paradise Island will definitely be more attractive than autopsies!
若二次
……
We might have to perform autopsies even on weekends!
I see! Pathology is actually very tough
WHY?
HOSPITAL
Nishine Nikaidou Tsuji Tateoka Tajima Sasaki Ishigaki Awano Nakagawa Hirayama
INTERNAL MEDICINE
Nakayama
WHAT SHOULD WE DO? THERE'S NO CHANGE IN RESULTS NO MATTER HOW MANY TIMES WE FILL IN THE SELECTION FORM
OR ELSE WE'LL HOLD A CARROT-EATING COMPETITION AND THE FASTEST ONE WINS!
THEN LET'S HOLD A COMPETITION WHOEVER IS THE FUNNIEST GETS TO SELECT FIRST!
……
We might as well ask unconnected folks who loiter around choose our research lab!
That's making things difficult for them
LET THE STUDENTS TALK ABOUT "REASONS FOR SELECTING THE HOSPITAL?"
HOW ABOUT ORGANIZING SOME SPEECHES?
HOW DO WE DECREASE THE NUMBER OF APPLICANTS FOR THE HOSPITAL?

I'M FINE WITH BACKING OUT!
WHY! THERE'RE 18 MALE RATS AND 23 FEMALE RATS OVER THERE!
THEN YOU GO OVER TO THE PARASI-TOLOGY SIDE.
HAMUETERU WAS THE FIRST TO SELECT THE HOSPITAL, LET HIM DECIDE!
HAM-UTERU!
PROF, IF WE KEEP ON CONTINUE TO LIE. IT WON'T REFLECT WELL ON OUR LAB.
SEEMS LIKE ALMOST TWENTY STU-DENTS CHOSE OUR SIDE. HOW DID WE BECOME SO POPULAR?
uhahaha hahaha
LIE? WHEN DID I LIE?
Glare



BESIDES... WHAT IF THEY DON'T FIND IT SUITABLE AND TRANSFER TO ANOTHER LAB WOULDN'T THIS BE MOST PROBLEMATIC?
DIDN'T THIS HAPPEN TO US BEFORE?
Sayo has transferred
IF THEY DECIDE ACCORDING TO WHO CAN EAT CARROTS FASTEST, OR WHO IS ABLE TO CATCH THE MOST FROGS, WOULD THIS BE APPROPRIATE?
NO WAY!
I'M ONLY EXAGGERATING SLIGHTLY TO PROMOTE OUR SIDE!
EVEN IF TWENTY STUDENTS CHOOSE OUR SIDE ONLY FOUR WILL BE SELECTED IN THE END AND EVEN SO, IT'S UP TO THE SCHOOL TO DECIDE
HMM ABOUT THIS!
But there're no frogs now!
HAM-UTERU!
THAT'S WHY I'LL LET YOU REMAIN HERE TO COMPETE IN THE FROG-CATCHING COMPETITION!
.....
DON'T BE NARROW-MINDED OTHER DEPARTMENTS ALSO TEACH ABOUT TREATING ANIMALS, LIKE VET SURGERY OR VET MEDICINE OR ANIMAL REPRODUCTION
HOW CAN YOU BACK DOWN SO EASILY? IF YOU DON'T SELECT THIS SIDE, THEN WHERE RE YOU GOING?
Show more perseverance for what you desired right from the beginning!

I NEED TO CLARIFY SOME THINGS ABOUT THE PARADISE ISLAND.
EVERY-ONE, PLEASE LISTEN TO ME!
Come on, calm down a bit, and then decide!
I GET IT! I'LL BACK OUT TOO.
How can I let you leave alone?
All right! Let's play the finger guessing game to decide!
Let's just draw lots
THERE ARE ALSO MANY RO-DENTS
THE PLACE WE ARE GOING ALSO HAS A BLUE SEA, AZURE SKY, AND A SANDY WHITE BEACH BUT IT IS COVERED BY A FOREST.
WAH, NO WAY!
EH?
FIRSTLY, WE ARE NOT GOING TO THE SEY-CHELLES
You will stay in a tent,
You have to cook for yourself.
And Prof Urushihara collects specimens non-stop, regardless of day or night, catching rodents everyday in the forest. That's the main point of our trip.

The sea is full of sharks, so you cannot swim in it.
Even if you want to go back to Japan, there's only one ferry every week.
AFTER THE TRIP
After a week of self-survival in the wilderness, everyone seems to transform into a different person.
That's like hell
I'M OUT!
ME TOO!
I'LL GO SOMEWHERE WITH LESS COMPETITION
ANYWHERE IS GOOD AS LONG AS IT'S NOT THE HOSPITAL
ME TOO.
Grab tightly
DIDN'T THE TWO OF YOU DECIDE ON THE HOSPITAL RIGHT FROM THE START?
.....
.....

The other students realized that this was not where they wanted to go, so they chose other labs that were less competitive...
In the end, Hamuteru and Nikaidou ended up in the hospital...
NO! WE'RE NOT ORGANIZING THAT THIS YEAR, AS WE DON'T HAVE FUNDS
EVEN IF THERE IS ONE IT'S NOT MANDATORY
Welcome
Newcomers!
I WISH TO REAFFIRM WHETHER IT'S NECESSARY TO UNDERTAKE A HELLISH TRIP TO BE A PART OF THIS LAB.
You're serious?
THAT IS ONLY IF SOMEONE WANTS TO GO.
Here
You're serious!
And so, the welcome party for the newcomers at each lab ended very late...
